Price : 6.000 €,  
including ornaments.

# MEDIEVAL BOWS

The medieval bows I made are based on those in the miniatures of the B.j.2 e T.j.1 codex of Cantigas de Santa María, by King Alfonso X, "the wise".

The bows are made with European wood; they never lose tension. The horsehairs are always black.

Despite its primitive appearance with them you can play any Renaissance or Baroque piece; these bows are very elastic and admit any kind of bowstroke.

It is possible to add a small nut, if desired, fixed only by the pressure of the hair.

Vyola bow: length: 770 mm; weight: 50 - 60 gr.

Price: 900 €

Large Vyola bow: length: 770 mm; weight: ± 84 gr.

Price: 900 € .

# RENAISSANCE INSTRUMENTS
